

Twispay – Wordpress(WooCommerce) Plugin Add new language - Documentation

- I. Open you plugin folder -> lang
- II. Create new language with specific ISO name(Eg: fr, es, it)
- III. Open your previous folder
- IV. Create a new file named lang.php
- V. Paste there the text from default language(plugin folder -> lang -> en -> lang.php)
- VI. And start modifying your text for your new language. Save the file and that is it.
